**Project:** Public Spending and Development Outcomes across Indian States: Does the Quality of Governance Matter?

**Grant Awarded:** SRSF –Post Doctoral (2016- 17) 590 CAD \$ / 3 ½ Months

At Carleton University, I got the opportunity to work for 3 ½ months with two best experts in the area of research I have been working on. I learned a lot during my stay in Canada. This experience will help me to become a better researcher in the future. I am very satisfied with what I learned and achieved during my visit to Carleton. Working on this project enhanced my understanding on the political economy aspects of development in India. Findings of the study will be published in standard academic journals and the support of SICI will be duly acknowledged. While working on this project, I got some new interesting ideas. I intend to do research on some of these ideas in future.
