

Jayanta Ghosh

Project: Canadian Privacy and Data Protection Law: An Exploration

Grant Awarded: SRSF –Doctoral (2016- 17) 560 CAD \$ /4 months

This fellowship project creates the impact of final outcome for my doctoral thesis. There are some experts whom I met, they share valuable information to come to the conclusion in a very conclusive way. For example, one of the expert share views that for privacy and data protection, there should be reasonableness and fair justice delivery system which should be acknowledge the golden rule of privacy principles. The impact of my project is really a tremendous one for the doctoral thesis of mine. There are several reasons to say that this project makes a review commentary effect on my thesis recommendations. For the purpose of the making some conclusive suggestions on the research work of my thesis, I really effortlessly worked for the completion of this project.
