

**Kalpesh Joshi**

**Project:** Sustainable Energy Systems with Photovoltaic Generation and Storage Solutions for Rural Communities in India and Canada

**Grant Awarded:** SRSF –Post Doctoral (20160- 17) 590 CAD \$ / 5.5 Months

With an opportunity to explore the Canadian context and use actual remote feeders as an example of demonstrating the applicability of proposed solution, this project lends credibility for its usefulness across different regions in the world. At my parent institute in IIT Gandhinagar students and faculty members both now are interested and aware of SICI opportunities and how it can be used for the students and research in general.
